

Constant Fear

When Jake Dents dreams of baseball glory fell apart in a drunk-driving incident, his marriage did, too. Hes become an avid doomsday prepper, raising his diabetic son, Andy, to be ready for any sudden catastrophe. Andy, now a student at the prestigious Pepperell Academy, where Jake works as a custodian, has a secret - hes part of a computer club that redistributes money from the obscenely wealthy to the needy. Usually their targets dont even realize theyve been hacked. But this time theyve stolen from the wrong people: a vicious drug cartel. The cartel infiltrates the academy, taking Andy and his friends hostage one by one. With his training and a stockpile of weapons and supplies, Jake is the last, best hope these students - including his son - have of getting out alive.
