

## Once Only: A story of growing up, falling in love, and getting married...a few times!

1969, the Summer of Love, Woodstock, NASA moon landing. Soon-to-be High school Senior Laura Patton finds a ring on the beach. When she puts it on her finger, she travels to the future and finds herself married to Gabe, the guy she just met. She removes it, and is back on the beach. Her friends tell her only minutes have passed although she spent about twelve hours with Gabe before she removed the ring. She and her girlfriends Dee, Lin and Mouse experiment with the ring and time travel. Laura tries it on with her boy pal Ringo Daniels-- and finds herself grown up and married with children. Yikes! The best part is-- when she removes the ring, shes back where she started from. Until the day when Laura slips the ring on and finds herself shackled to a cellar wall But this isnt the end. She escapes, and goes on with her life, determined to return to that house and find the girl named Carla who was held captive there.
