

Sarraute romanciere: Espaces intimes (American University Studies) (French Edition)

Au plus profond de son être, l'homme est une substance anonyme, sujette à des mouvements intérieurs imperceptibles et puissants. Cette matière fondamentale prend forme à différentes époques de son évolution: lors des premiers traumatismes, obsessions imaginaires, choix idéologiques et statuts sociaux. Tous sont des masques et des obstacles, qui séparent l'individu de son authenticité intérieure comme lecrivain de son écriture. Suivant Nathalie Sarraute dans son exploration de ces mouvements intérieurs, l'auteur étudie les déformations de la nature humaine qui en découlent et la manière dont celles-ci sont représentées dans le langage.
